Marlboro March 18th 1869

O C Marsh

Dear Sir

I regreted that I was from home when you was at Marlboro. I was at Freehold and saw you in the street but could not call to mind where I had met you before. but when I got home and found you had called on me I was very sorry that I was from home.

We have found one of the best collection of fossil remains I ever saw I bought them of some Irish workman the jaw bone & teeth of a monster. I expect to ship them to Madison University before long

If you Ever think of Come
ing to Marlboro N.J. again
send me a letter in advance
and I will try & be at home

Yours Most Truly
O.C. Herbert
