

THE DATES AND AUTHORSHIPS OF THE NAMES  
PROPOSED IN VOLUME 9 OF *ENCYCLOPÉDIE MÉTHODIQUE*  
BY GODART AND LATREILLE, 1819-[1824]

by CYRIL F. DOS PASSOS

SHERBORN and WOODWARD (1893, p.582; 1899, p.595; 1906, pp.577-582), LINDSEY (1923, pp.123-124), and BROWN (1941, pp.131-132) have published on this subject. The latter lists thirty-three specific names used for Nearctic Rhopalocera, but appears to have done no research beyond following some notes made by the late FRANK E. WATSON in the copy of this work in the American Museum of Natural History. Where WATSON obtained his information can no longer be ascertained. However, it was not entirely correct.

From a careful examination of volume 9 of the *Encyclopédie Méthodique* and study of the publications of SHERBORN and WOODWARD and LINDSEY, the following conclusions may be drawn respecting the dates of publication and authorships of the names proposed by GODART and LATREILLE.

The work itself bears an 1819 title page, but this date relates only to part 1 of volume 9, pages 1 to 328. These pages were published by GODART in 1819 and all names proposed therein should be ascribed to him under that date.

Part 2 of volume 9, pages 329 to 828, was published in 1824. Consequently, all names proposed in this part should be dated "1819" [1824]. The authorship of this part is divided between GODART and LATREILLE. Pages 329 to 706 (in part) and pages 708 to 828 are by GODART. Pages 706 (in part), 707, and all extra-European hesperiids to page 793 are by LATREILLE.

As a result of the foregoing, the following list of generic and specific names is published for the Rhopalocera that will be used in the author's forthcoming check list of Nearctic butterflies. It is arranged alphabetically.

GENERIC NAMES

Name	Author	Date	Type Species
<i>Eumenia</i>	Godart	"1819" [1824]	<i>Eumenia toxea</i> Godart, "1819" [1824]
<i>Heliconia</i>	Godart	1819	<i>Papilio charithonia</i> Linnæus, 1767

## SPECIFIC NAMES

Specific Name	Author	Generic Name	Page	Number	Date
<i>bazochu</i>	Godart	<i>Polyommatus</i>	681	203	"1819" [1824]
<i>cantheus</i>	Godart	<i>Satyrus</i>	493	56	"1819" [1824]
<i>cleobæa</i>	Godart	<i>Heliconia</i>	222	58	1819
<i>cleothera</i>	Godart	<i>Danais</i>	185	31	1819
<i>clorinde</i>	Godart	<i>Colias</i>	813	1-2	"1819" [1824]
<i>cnidia</i>	Godart	<i>Colias</i>	93	14	1819
<i>columbina</i>	Godart	<i>Argynnis</i>	260	12	1819
<i>comyntas</i>	Godart	<i>Polyommatus</i>	660	147	"1819" [1824]
<i>coresia</i>	Godart	<i>Nymphalis</i>	359	31	"1819" [1824]
<i>cornelius</i>	Latreille	<i>Hesperia</i>	764	104	"1819" [1824]
<i>daira</i>	Godart	<i>Pieris</i>	137	59	1819
<i>dalman</i>	Latreille	<i>Hesperia</i>	747	48	"1819" [1824]
<i>damastus</i>	Godart	<i>Polyommatus</i>	640	86	"1819" [1824]
<i>disippe</i>	Godart	<i>Nymphalis</i>	393	152	"1819" [1824]
<i>dorippe</i>	Godart	<i>Colias</i>	101	36	1819
<i>drury</i>	Latreille	<i>Hesperia</i>	767	110	"1819" [1824]
<i>eurycles</i>	Latreille	<i>Hesperia</i>	730	5	"1819" [1824]
<i>eurythris</i>	Godart	<i>Satyrus</i>	494	57	"1819" [1824]
<i>falacer</i>	Godart	<i>Polyommatus</i>	633	58	"1819" [1824]
<i>frega</i>	Godart	<i>Argynnis</i>	273	37	1819
<i>hugon</i>	Godart	<i>Polyommatus</i>	640	84	"1819" [1824]
<i>irus</i>	Godart	<i>Polyommatus</i>	674	177	"1819" [1824]
<i>josephina</i>	Godart	<i>Pieris</i>	158	136	1819
<i>lherminieri</i>	Godart	<i>Pieris</i> "197"	[167]	164	1819
<i>lherminier</i>	Latreille	<i>Hesperia</i>	777	135	"1819" [1824]
<i>lyside</i>	Godart	<i>Colias</i>	98	30	1819
<i>milberti</i>	Godart	<i>Vanessa</i>	307	25	1819
<i>myrissa</i> (emen- dation)	Godart	<i>Argynnis</i>	(268 (806	(27) —)	1819
<i>myrto</i>	Godart	<i>Nymphalis</i>	418	213	"1819" [1824]
<i>neda</i>	Godart	<i>Pieris</i>	135	54	1819
<i>nyctelius</i>	Latreille	<i>Hesperia</i>	746	47[a]	"1819" [1824]
<i>pellenis</i>	Godart	<i>Nymphalis</i>	359	29	"1819" [1824]
<i>phatontea</i>	Godart	<i>Argynnis</i>	288	58	1819
<i>philodice</i>	Godart	<i>Colias</i>	100	35	1819
<i>pompeius</i>	Latreille	<i>Hesperia</i>	765	105	"1819" [1824]
<i>tharossa</i>	Godart	<i>Argynnis</i>	289	61	1819
<i>themistocles</i>	Latreille	<i>Hesperia</i>	769	115	"1819" [1824]
<i>thadana</i>	Godart	<i>Biblis</i>	326	1	1819
<i>toxea</i>	Godart	<i>Eumenia</i>	826	1	"1819" [1824]

Two of the names listed by BROWN have been omitted from the foregoing list, *Argynnis morphea* because it is not believed to be a new name proposed by GODART but merely the feminine of *Papilio morpheus* Fabricius, 1775, and *Hesperia savigny* Latreille, "1819" [1824] for the reason that this insect is no longer believed to occur in the Nearctic fauna.
