The Annual Meeting in San Antonio, held July 1 and 2, 1963, was excellently planned. The Committee, most especially Mr. Roy Kendall, is to be complimented on the excellent manner in which the meeting was handled. The attendance, while not unusually large, was enthusiastic, and those who were fortunate enough to attend found the Meeting both instructional and interesting.

The Meeting of the Western Section of the Lepidopterists' Society will be held, as previously stated, August 24-25 in Santa Barbara, Calif. The Western Section hopes that members from other sections may attend as well.

After unfortunate delays, good progress may now be reported in the final stages of publication of the dos Passos Synonymic List of Nearctic Butterflies. Publication under 1963 date is confidently expected.

Special Notice: Senor Carlos Gomez de Aizpurua, San Sebastian, Espana, Tercio San Miguel no 10 - 40 Izda, writes that he wishes to obtain specimens of insects from the United States for the Museo de San Telmo in San Sebastian, at which he is Chief of the Section of Entomology. This looks like a fine opportunity for members to obtain European material and at the same time help a colleague. Senor Gomez offers exchange of European material, especially from Spain. He wishes correspondence with museums and universities, as well as with individuals who have material for exchange. Write directly to Senor Gomez if you are interested.

Robert Pyle, of Aurora, Colorado, is a participant in the Summer Science Training Program at Jackson Memorial Laboratory, Bar Harbor, Maine, during the summer of 1963. He is also the recipient of a grant in support of a project on Colorado Satyridae, and plans to study the Cercyonis of Colorado.

OFFICERS FOR THE YEAR 1963

President	H. B. D. Kettlewell	(England)
First Vice President	Don B. Stallings	(U. S. A.)
Vice Presidents	C. M. de Biezanko	(Brazil)
	S. G. Kiriakoff	(Belgium)
Executive Council Members	Shigeru A. Ae	(Japan)
	L. P. Brower	(U. S. A.)

Charles V. Covell, Jr, Dept. of Entomology, Virginia Polytechnic Institute, Blacksburg, Va., has an extensive supply of common and slightly second specimens of butterflies which he will send free to anyone sending a postpaid package in which he can ship them, so that he will not need to supply the boxes and pay postage on insects he is offering free. This is a good chance, especially for beginners, to obtain spacefillers until they are able to get others more perfect. Mr. Covell suggests he will send fifty or so specimens on a first come first served basis, as long as they last.

1/63(5):1

The following members are reported deceased: Dr. Donald W. Farquhar of New York, a student of distribution and life history; Mr. S. W. Kay, Fresno, Calif.; Mme. Vera M. Muspratt, Jean-de-luz, France, a student of life history and migration; Gordon R. Steinhoff, Sepulveda, Calif., and Mr. H. G. Thirkell of Cowra, Australia. No details are known on any of these members.

The Very Rev. J. C. E. Riotte, Toronto, Ont., writes stating that the Lepidopterorum Catalogus, editus ab Embrik Strand, not available since World War II, may now be obtained from Zentral Antiquariat der Deutschen Demokratischen Republik, Talstrasse 29, Leipzig C 1, Germany/D. D. R., from list no. 507, item 239. These seem to be new uncut copies. (Leipzig is in East Germany. Prospective buyers should inquire as to how to remit.)

The Bayerischen Entomologentag was held in München, 5 to 7 April 1963, with a distinguished program. A copy of this program will be filed with the Society's library. The Frühjahrstreffen der Entomologen Nordwest-Deutschlands was held in Hannover, 9-10 March 1963. On the evening of March 9, Herr Noack spoke on Collecting in the Peloponnesian region of Southern Greece. On March 10 a large Insect Bourse was held. This news is from Gerhard Hesselbarth, who this year collected in Morocco and in Spain.
