FRANKLIN SQUARE,
NEW YORK, Sept 24th 1877

My dear Sir,

Mr. Pack an excellent photographic artist will make the photographs of the groups selected. You will view them the group which we decided to arrange on the and beneath the window. I believe that the window which looks from and the college spires will be the one. Mr. Pack understands that he is to make two plates one of the group and the other of the hands captive. Which we will
Come once in the evening.

In the collection of pottery will you be so good as to give us your good judgment to take articles from each state and if not asking too much of your valuable time it would aid us if you will have a small bit of paper on which a number can be placed designating the state from which the article came. and let us have a duplicable list if same which if you will hand to Mr. Pack will deliver.

In the armament of the group two of the tools and weapons in the other room could be used to advantage - the other subjects
which would seem to be of present
in Great - am. The "Masterdon
Case." The Clay Sand alone will
The sea roved the coveries from

Prof. O. C. Marsh
Yale,

Dear Sir,

Could you tell me if the papers read at the meeting of the Academy of Science will be published? I should much like the opportunity of reading them.

Believe me,
