Jan 11th 1867

Dear Sir,

Prof. Lyman informed me that you had spoken to him of purchasing my 'Lett of the Nativul History of N.Y.' I should have been happy to have seen you in New Haven last week respecting it, but you were absent from the city. The Lett is entire (21 vols. & a Map) is in good order—most of the plates are colored. It only one or two volumes...
Soiled in the leister.

The books are large, not especially valuable to me. The price, as Prof. Lyman informed me, for the work, paid by the 50 hard book sellers in N.Y. varies from $50 to $60. They sell from $25 to $90. I suppose mine to be worth $75. But as I will be glad to sell them, as one of the volumes is a little soiled (not enough to disgrace it)

I would sell it for $70. Should you care to purchase it yourself or for a friend, I should be happy to dispose of it to you.

I was offered $63 for the set by Mr. Innell of the Hartford Athenæum. He said was the price for a copy sold the week before at a N.Y. Book Auction. This seemed to me hardly a fair price.

Very, very yours,

Rev. R. F. Remond.

Dear Sir,

In reply to your letter of yesterday I will say that I should prefer to dispose of the chart to you at once — but I shall leave this for you to arrange. I only wish you to direct me when and how to send them to you. I shall do this as soon as you desire.

I wish to send with them the documentary history of N. S. for Mr. Lyman.
I have also a set of Dr. J. Gregory's Philosophical Dictionary in 3 large Octavo volumes, each as thick as the thickest volume of the Nat. History. It was published in NY in 1822 - is quite hard to come by found & has about 50 illustrative engravings. It is even more out of my line of study than the Nat. History - if it would be valuable.

As your Library of the Scientific Department I would be glad to dispose of it at almost any price. Pardon my trouble in respect to it. I inform me if it would be possessed any value.

Very Respectfully yours,

The Hon. J. McClellan

Worth the dictionary be worth $15. I presume it cost twice that amount.
Hampton Court, March 2nd, 1869

Dear Sir,

I send you today or Monday the Natural History of M. J. 21 vols — and also 3 vols of the Documentary History. Wh. I beg the favor of you to present to Prof. Lyman with my kind regards.

I was not able to send the map which I re-
longs to the R History
nor the 30th vol of the
Documentary 174, for
want of room - I will
send both by the ear-
liest opportunity. I no-
ticed, as I packed the
books, that the back
of one of them had
cracked a little and
that there was a
spot on the side of
another. If you began
these as mending the
Volumes so as to
seriously to impair
their value please direct what you consider a fair equivalent for their value.

Very Respectfully,

Thos. R. F. Forsythe
