Dayton, Ohio Feb. 8th 1891

Prof. O.C. Marsh. Yours truly,

Dear Sir,

Yours of 1st

Dear and in accordance with your request, I send:

1st. The vertebra.

2nd. Bones found alongside the train of vertebra. and

3rd. Teeth and jaw, found by the side of vertebra.

I think one of the bones belong to some kind, which I shall mark

4th. also found in connection with the vertebra.

I hope to hear from you, and learn further facts regarding these fossils, which I shall send by mail.

I will also state that I am going
To Colorado in the spring,
therefore I wish to sell my collection
consisting of several thousand specimens
of fossils, of the upper and lower Silurian
the Letting, Nash, etc., also minerals
and relics, consisting of pottery in fragments,
hatchet, arrow heads, etc., the whole of which I will sell for the
nominal sum of three hundred
and fifty dollars. Therefore,
should you know any institution
or private collector, who are desiro
me of acquiring my collection.
Please make me acquainted with
the fact, by doing this you will
confer a favor upon. Most
respectfully yours. J.W. Idaho
