Wichita Falls, Texas, Jan. 5, 1885.

Dear Prof. Marsh:

I returned today from my first trip. Had no difficulty in finding the fossil beds. It was so cold that I could not work any. Everything is froze up solid and the weather is extremely cold. Two men have frozen to death. The man who went with me froze one of his feet. I came through all right. Rivers are frozen over so that they cross with teams.

While out I found three good fossil beds. Although I could not dig in to see what there was in the beds yet from the specimens that were washed out I know that the locality is inexhaustible and I think that if I could have 2 or 3 men to help me for as many months and good weather I could easily get a car load of bones.
I only picked up specimens that were washed out for I could not dig any so that I did not get any very good ones. I will send you a few by mail so that you can judge of what I am likely to find. The ground is just covered with loose and I am quite sure that the locality is quite as rich as the one in Kansas.

I was out only nine days and I consider the trip very successful as I had to explore the country for over 50 miles. Old settlers here say that we will have good weather here after a week or two. If I stay here only until the middle of the week I should think that it would be best to allow me more than one man when we have good work. I am well pleased with the man I have and would like to keep him by his name is Mr. David Barlow I address Wichita Falls, Wichita Co. Texas. I have also formed the acquaintance of any young man here by the name of James Boyd who would like work. He is an old cowboy.

Wichita Falls, Tex, Jan. 7, 1885.

Received of Prof. C. B. Marsh one hundred dollars for expenses.

Prof. O. G. Marsh.

Dear Sir: I have received no answer to my letter of Jan. 5. When I left for Texas you authorized me to expend $50.00 for help if it was needed, before hearing further from you. I have already expended a little over that amount and have not heard anything as yet from you about the matter. I have been waiting over a week to hear from you.

I like to do as nearly as possible as directed. We are having good weather now and I feel as though I should be at work, but will wait until I hear from you. I collected & packed three large boxes of bones while out on my last trip and collected & left out there about 250 lbs which I had not lumbered for some time.
pack in. I am fully convinced of the richness of the locality and if I could have anything or anybody to do with & knew what to do I could & would do great deal here by the first of April or time to go to KS. but I do not feel very much encouraged so far.

As for as hearing from you often is concerned that does not matter but I don't like to lay around waiting & doing no thing when a word or two would let me know what to do.

If you want me to do anything here please write & let me know at the $50.00 have already been expended and send check for $100.00

While out I got several fine furs with teeth, many toe & leg bones & one rather complete skull over a foot long.

I will send you a balance sheet of expenses the 1st of the month. The grocery bill on those sheets I will pay half of.

Hoping to hear from you soon Truman very respectfully yours,

C. E. Hatchet.

Prof. C. C. Marsh:

Dear Sir: I received your telegram this morning. Will start out early tomorrow morning.

I have had no answer from you to letter of January 5th. There seems to be considerable trouble in getting mail through this postoffice. I understand that the present postmaster had been arrested for destroying the mail and that another will soon take his place. Hope it will be for the better.

If you have already sent the money I asked for in my last letter please send me $50.00 more or $100.00 in case you have not yet sent the $100.00 asked for. I take this to go with me this trip. Yours truly,

J. B. Hatcher.

Prof. O. C. Marsh.

Dear Sir: I returned yesterday morning from my last trip only to find that there was no mail for me. Have not received but one letter from you & that was the one containing the $100.00 check shortly after I came here. I registered you a letter nearly two weeks ago & wrote you a month ago. After but have heard from neither. I can not pay my board like a man & team, buy provisions, packing material, lumber, etc. for six weeks on a hundred dollars. I have not money enough to buy a postal card nor have not had for some time.

This trip I got a box of good specimens will send you some teeth & a toe bone by mail. I should not have come in so soon.
but someone came when we were off at work and stole three pairs of blankets and a lot of provisions so that we had to come in for more blankets & provisions. But I have nothing to get either with.

I received your telegram all right.

Yours.

J. B. Batchor.

Prof. C. C. Marsh:

Dear Sir: I received your letter & check this A. H. Will start on tomorrow again will take provisions for five or six weeks & will not return until time to start for Kansas. That is if you want me to be there by the first of April as you said when I left. The specimens here are badly broken and do not lay buried in the ground at in Kansas. I now have out about 1000 lbs. Will do my best and keep expenses as low as possible. If Mr. Jaynes was not out working and taking care of camp now I would not keep him any longer. But he is a good hand & I will keep him until I leave unless you direct otherwise. I have borrowed blankets & so will not be at the expense of buying
more. When I go out I am going to visit all the cow camps in the vicinity if the boys have the blankets I will have them or something else.

I register you to day a can of fossils enclosed please find receipts store bills & balance sheet of expenses up to Feb 1952. Also a receipt for the $50.00 received today.

I will be at work near Seymour, Baylor Co. Texas while out and will go there for my mail. Please address me at that place and if you want me to go to Kansas in April send me 200.00 by registered letter so that I will get it within three weeks from this. I am quite willing to leave Texas. It is as cold here as in the North. I will go to Seymour in three weeks for my mail please write so that I will get it then. Shall I ship boxes through Ft. Sill quartermaster? Yours,

J. B. Hatcher

Prof. C. B. Marsh:

Dear Sir: Nearly four weeks ago I wrote you a letter telling you that I would be in Seymour three weeks from that day to get my mail and asking you to write me instructions as to leaving here and also to send me check so that I would get it then. In order to be there promptly as I have always tried to be, with you I walked about sixteen miles I waded the Big Wichita River when there was ice in it only to find when I got there that there was nothing for me. I have received nothing yet. I do not know why it is that you have been holding back on me since I came here unless you are in some way dissatisfied with me. If you are I don't feel that I can better matters, nor have I done my best since I commenced in July. I like the work...
and should like to continue in it if I thought I could please you. But I do not like the way matters have been since I came to Texas. When I promised men money at such a time I expect to get it for them and I don’t like to tell them when the time comes that I haven’t it.

Unless there can be a change I had rather stop work. You will find enclosed receipts from both Mr. Lyon and Mr. Ballow for their pay up to time of stopping work. Mr. Ballow thought I rode one of his mules too hard and let him go. As soon as I get money to square up I tend to slipping boxes I will send you a balance sheet.

I have now 7 boxes of bones containing I think between 1500 & 2000 lb. of spine. Feb. 27 I sent you by mail from Seymour a small but complete skull. Did you receive it? Very respectfully yours,

Prof. O. C. Marsh

Dear Sir:

I received your letter and check yesterday. I was sorry to hear of your illness. Hope you are entirely well now. I will start for Kansas tomorrow as you said you would like me to be there by April 1st. I have written Mr. Overton to that effect.

I have become acquainted with Prof. W. L. Humphrey, who has been collecting here the last four years for O. D. Beck. He would like to collect for you during
the coming summer. I told him that I
would stay off in Dallas and I went through to see him. I think in
half he would be a good man at any rate. The best and next
best part of the country. He also spoke to me of some wild birds
which he wanted to dispose of to you. He says he has written him to send
them to him but that he is waiting to hear from you. He will collect here during the summer
anyway.
I send you enclosed duplicate bill of lading for $200 and receipt for $200. I can't understand
the way this bill of
neds out, but I suppose the Dept. might make at St. Louis or
ward another bill to me at New Haven if so you I should think
you could sign it. I the
one I send you to day
I return them to the
quarter master when you receive the boxes instead of sending them to me
to sign.
I think there is
the worst place outside for fades. I have done
the best I could under circumstances since I came here and have found
a great many specimens though most of them are badly broken up.
I am not satisfied with my work here for I have had to lay still and do nothing more than half of the time simply because I had nothing to do with. My address will be Long Island, Phillips Co. Kansas. When I get there I will send you a balance sheet of expenses. If you ever want me to come to Texas again this fall for instance I am willing to come but I want to pick some northern man out to come with me.

Very respectfully yours,

Long Island, N.Y., Apr. 18, 1885:

Dear Mr. March:

I received your letter yesterday, and send today all you request a statement of expenses for the last quarter, as you see the monthly expenses have been $177.34.

I am glad you only want one man to work here with me, for I think I can do better work. I am succeeding very well, and have already two good skilled men. With one man the expenses will not be above $120.00 per month.

Please send me $100.00 at once or I will have to have some scraping done soon, and our stock first month's wages will be coming due.

Therefore I want to arrange it to draw my pay once every three months.

Respectfully yours,

J. B. Hatcher.

Dear Prof. Marsh:

I send you enclosed a daily memorandum of bones taken out since I commenced work here Mar 30.

I am having better luck here this year than I had last. Already have out 727 bone including 4 skulls three of them perfect. One perfect lower jaw of mastodon. Have 18 bone packed.

Please send me some more cards to put in the inside of box just under the cover.

You wanted to see some hybrid bone of rhinoceros last fall. I will send some by mail to day.

Yours truly,

O. B. Marsh

Dear Sir:

Enclosed please find receipt for check for $100.00 which was received in due time. Work is progressing well here considering the weather which has been bad for past few days.

Very respectfully yours,

J. B. Natcher.

C. L. as, Prof. March.

I received your monograph of the Dinoratra last evening for which please accept many thanks. I hope I may benefit myself by it.

Enclosed please find daily memorandum of lace for past two weeks.

Weather has been quite rainy so that I could not work all the time. But I have taken out some good bones. Have now 31 boxes full out.

I strained my left hand badly yesterday. Today it is much swollen & very painful. It will be a little awkward for a week or so.

Will you please send me Dana's Mineralogy & let me know the price of it?
