Professor Marsh

Honored Sir,

Two years ago you made the generous offer of books on exchange for geological specimens. At one time I sent you a package by the hands of Mr. Moore of the last senior class. Last week I sent a box in the care of the Episcopal minister, Rev. Francis Lordell, Rector of St. Paul's church &c. I think. The box was directed to Samuel Barne.
and is to be at the house
of the Rector on Olive
Street, I believe. The
specimens are from
Walnut Hill near Cinn.
except the Cystophrhynchum
I should say from the
Sound but Webster does
not give it. Is from
Moore's Hill, I think. If
the collection is worth
anything to you I am
glad. Am ready to
receive any books you
send. What object to
them if they are neither
few, current, or orthodox.
Magazines and second
hand books acceptable.

Wish I had something
to send but my
professional duties
and all my time
are in the cause.
R. C. Hawley,
Pipe and Third Streets,
Route 80.
Cinn.

[Handwritten note: Rev. R. E. Hawley, Pike 32nd St., Cinn., O.]

[Note: Handwritten list: $2.5]

Mr. Addison Van Varr
Dear Sir,

Many thanks to you and Professor Marsh for the books. The collection is well adapted to meet my wants. If Professor Marsh passes through the city I should be glad to show him some valuable private cabinets owned by our citizens unless he already has access to them.

Yours cordially,

R. E. Hawley.

Professor O. W. Marsh
My dear Sir,

If it is necessary to pay cash for Indian relics can you advise me as to prices. I can secure a large quantity by paying cash but do not feel disposed to invest until I know how to buy. Indian arrow heads, bark peelers, &c., are offered for cash only. If I should pay cash will I receive only books from you in return. Have received one large battle ax by exchange.

Yours cordially,

R. E. Hallow.

My dear Sir

Yours

with the check of $625.00 enclosed came in due time but I regret to say that today I lost the check. I will advertise in tomorrow's paper and also thanks you to mention it in the bank and mail notice to the bank immediately. I do my banking business in the Lafayette Bank of this city. Today I purchased a large lot of Indian Antiquities and hope my prices are not too high. The specimens in the bottom of the box and the arrow heads in boxes are from Rising Sun Indiana. They were found within a Radius of five miles of that place. Some are from Boone County Ky and the rest from
Ohio Co Ind but all from near Rising Sun. The lot near the top are from this Southern part of Ohio. These are four stones marked anvils which I leave you to price one is a flat stone in the bottom of the box. There are two almost round stones marked tools and supposed to have been used in making pestles. These you may value. The pestles I was compelled to price and hope I have not placed them too high. Is it convenient to let me have three copies of Dana's Manual, the large edition? Shall I continue to secure specimens and if I have been interested in these purchases I will try to be more careful in the future. I also send you some grass which was found in the new reservoir for the water works down below the stone and will you please tell me if it is fossil or recent. If there is any mistake in counting the specimens please point it out.

Yours cordially,

P. T. Harmony.

185 East Third Street.

Cincinnati, Mar 25, 1871

Prof. O. C. Marsh
New Haven, Conn.

My dear Sir,

It is my intention to forward to your address today another lot of Indian Antiquities. There are 30 good flints and more than one hundred fragments. Will you please tell me what the fossil grass is I sent in the first box if it is a fossil. Also is it worth while to pay any attention to what is named a polisher, an amulet, and a tool?
The greater part of this collection like the former is from Rising Sun. But all the man who made it says these three lost man implements are always found near Indian relics. An anvil similar to these large ones has been found by Mr. James near Gouldand, a round one also or a tool was also found by Mr. Byrnes near Columbia.

 Shall I engage another collection from Rising Sun. If I do not contract for it immediately it will go to Europe. This lot is worth $50, 00.
I was compelled to contract a debt in its purchase. Is it a fair question to ask whether these will find a permanent home in America or be sent to foreign parts? Could you furnish a copy of lynier's large work on exchange for specimens— if not the large the small 75 Ct. edition?

Yours cordially,

R. E. Hanley.

Prof C Marsh

My dear Sir

I have on hand about $125,000 worth of Antiquities which I wish to dispose of immediately in order to purchase a large lot of very choice ones soon to be sold. If you can take these I will be glad to send them and will be prepared to fill any large orders this fall.

Yours respectfully
R. E. Hawes
Cinn. O. Sept 25th
t
Professor O. C. Marsh,

My dear Sir

Mr. Van Name directs me to address you in the meet. I am constantly receiving large collections of Indian artifacts and would be glad to turn them over to you immediately. I have now nearly 35,000 specimens of material and workmanship. Some of the axes are good and many of the needles and spears are fine. No pipes.
The specimens are from the banks of the Ohio both above and below the city, from the inland counties of this state and Indiana. In a short time I expect a lot from one of the lower counties of Ky. Do you wish any more hand hammers and anvil and any short pistols? The variety of pistols are found more frequently down the O River near Rising Sun, Indiana. Among the varieties of flints "flints" are the hardest to secure. Lately I have procured quite a number of flints which present the treat if I cannot dispose of the
Present collector soon
I must stop as my
money is now exhausted

Settle Check for $125.

Oct 2nd 1873
Cincinnati Dec 12th 1871
Prof OC Marsh
Yale College

Dear Sir,

I am prepared to ship $100,000 worth of relics and, as you have a credit of $5,000 or last bill would expect only 75c. Having begun I do not know how to stop. I could forecast in the course of four weeks $5,000 worth of antiquities. Of course these must be many duplicates in such a large lot but I cannot have the privilege of pulling out. I like the work and if your
Museum can receive the specimens I will be glad to send. I failed to secure the collection from Kentucky but think I can purchase a very valuable lot worth $250.00 from an old collector here. If you do not wish all I can send will you have the kindness to refer me to any other professors.

Yours

Prospectilla
R. E. Harley
3 5 East Twelfth

P.S. Yesterday I was informed that you would lecture in Louisville in February if you do so on what terms.
Could I arrange for a lecture here as a private enterprise? We cannot bring out more than one hundred and fifty or two hundred persons to a scientific lecture but I would advertise extensively.

H.
Cincinnati Jan 26th 1873
Professor O.C. Marsh

Dear Sir,

I was very glad to hear of your safe arrival. On receipt of yours from the west I forwarded the relics and placed the amount at $2,000 instead of $12,500. There is to your credit then $2,500. I have on hand $1,000 on north of relics which I should be glad to dispose of. I can purchase from the man who has collected so many near Rising Sun 2d $500,00 north.
He has a huge axe which he asks $150,000 for. An old collector having become embarrassed is anxious to dispose of a lot worth about $20,000. The locality is unknown but there are many good things in his collection. Will you please inform me if you wish me to continue buying or not as it is a difficult matter for me to stop having made such a beginning.

Sirs

Respectfully

P. E. Harmsley
Cincinnati, Feb 20th, 1832
Prof. O.C. Marsh,
My Dear Sir,

I very much regret that I have not been able to give you satisfaction in the Indian antiquities for which this table arrived the only reward I felt likely to receive. It is impossible for me to purchase pipes here. There is an earthen bowl of ancient manufacture now offered to the highest bidder. It is perfect, has no handles, is beginning to crack and will hold 2/3 of a pint. The highest offer made is $12.50.
Yesterday, I forwarded enough Rustics as I suppose to fall out your former order. The fragments are sent not only to show the workmanship but the material. The unfinished blocks shaped like huge axes are from Clermont County. The rest of the lot is from the Ohio river and near Enterprise. One small lot of flints from this state. I would feel a good deal easier if you could direct me to some market where I could dispose of the lot I have on hand.

Yours Respectfully,

R. E. Hambly

97 East Fifth St.
Ginn, March 12th, 1872
Professor O. C. Marsh

Dear Sir,

The last lot was to make up a deficiency for your order of last winter. Very much obliged for all your kindness and if I succeed in securing anything new I will be free to inform you. Just now I have an exhibit a pot which holds a pint and a half. It is crocked but not broken. The owner does not say he will sell it but wishes to know how much he can get for it if he concludes to sell. The
highest bid is $2.50 which I consider very low. Think it could be packed in cotton and carried safely. I am not certain it can be bought well know soon. If I have occasion may I refer to you.

Respectfully,

P. E. Hamley
Cleves, Ohio, March 4th

Professor C. C. Marsh,

Dear Sir,

I have recently purchased of Mr. Thomas Clokey an old and industrious collector and amateur of Indian Relics a valuable collection of Flints which he bought of a collector now living in Atchison. It is the finest assortment of Spear and Arrow Points I have ever owned. You can have 500 which will embrace the finest pieces at $5.00.
Mr. Clancy is a very healthy gentleman and has an immense and valuable collection. I can also send you some fine axes, grooved and ungrooved pestles &c. If after you examine the lot you find it unsatisfactory you can refund the money.

Respectfully,

R. E. Hanley

*Having removed to the vicinity of Cincinnati, I have increased facilities for filling orders. I will pay express charges in addition to the above discount.*
Cinn. June 18 th 1872

Professor O.C. March,

Dear Sir,

I think I am prepared to send you about $50.00 worth of choice axes, flints, and peecless. I will try not to send duplicates, broken pieces, and worthless stuff. I have some axes as good as the Mrs. Mrs. Crandae showed you. I believe I never sent you any very small flinch a good supply of which I now can furnish. I will be careful in packing.

Respectfully,

14 Harrison at R. C. Hawley
Prof. O. C. Marsh

Dear Sir,

Mr. Geo.

I oughtly one of your students gave me a verbal answer from you of my last letter. His words were certainly more liberal and unrestricted than your last letter of advice. I have tried to send you good specimens such as you will prize.

In the first box are

20 Peckers 51 each $0.11.00
5 Axes 200 11.07
5 Axes 1.00 5.00
4 Hand Hammers 31 1.61

26.60
Cincinnati Aug 10th 1872
Prof. O. C. Marsh

Dear Sir,

Mr. Geo.

I ought to one of your students gave me a verbal answer from you of my last letter. His words were certainly more liberal and unrestricted than your last letter of dispute. I have tried to send you good specimens such as you will prize.

In the first box are:

20 Peckers $1 each $21.00
5 Axes 2.00 each 11.00
5 Axes 1.00 each 5.00
4 Hand Hammers 3.00 12.00

26.60
4 Pestels 60 $2.40
In the second box
5 Axes 2.00 $8.50
1 Block 2.00 2.00
195 Pestels 60 9.00
12 Peellers 50 6.00
5 Hand Hammers 4.0 2.00
137 Flint 1.0 18.40
12 Iron Fragments 40 1.80
77.20

The largest nicest axe in the first or smallest box is from Clermont County, Ohio. It is the heaviest Pestel among the rest I think are from the Ohio river. The heavy implements not labelled in largest box are from Dr. Maxwells collection. The flint not labelled are mostly from or near the Ohio River.

I have a few choice nice specimens designed for you but would like to retain them until after our great Industrial Exposition. I could easily send you fifty dollars worth more but preferred not to send unpolished broken specimens. If you desire me to continue making specimese for your cabinet I will be glad to do so. Those I design sending you early in October will make the amount equal to $10.00. If you prefer to have them immediately I can forgo the pleasure of making an exhibition of them.

Respectfully, R. E. Henry
14 Harrison St.
P.S. Please notice if there are any errors.
Cincinnati Aug 22nd, 1872
Professor O. C. Marsh
Yale College
New Haven Conn.

My dear sir,

Yours of the 14th was waiting my return after a short absence last week.

I will try to observe your directions in the forwarding of specimens hereafter. I have a few nice ones on hand that I design sending you at the 10th of October unless you should desire them sooner. I would like to use them during the Exposition.
I have never been able to purchase any pipes since I began buying for you. Respectfully,

N. E. Hamley

Total: $108.75

Donation: $5.75

I have now in my possession $25.00 of the Professor's money which I will use in the purchase of an additional lot.

I detect myself making mistakes in counting and if you will engage any one to recount I will pay for his services.
All of the heavy implements are from counties bordering on the Ohio River within one hundred miles of Cinn. About 500 flints are from the banks of the river and nearly half as many fragments. The dark colored drills are from Hocking Co. this state, and from the same locality are 8 perfect flints and 20 fragments. The light colored short drill is from Eaton, Ohio (I think) from near Lafayette 2d 12 3 lip to 18 fragments. Clermont Co. this state about 5 to fragments. The three blocks from the O. River and Chatsworth from Oregon.
From this time I will not send Professor Marsh any more specimens from this region unless they are of especial interest as there is some similarity between specimens found in the same locality. Many of the fragments are quite as interesting as whole specimens.
Cinn Dec 31st 1871
Professor O C Marsh
Dear Sir,

I will send you immediately by a stone implement from a mound near Gallo's Hole, Ohio. It cost me near $2.50 and if you think it too high in price you can return by Express at any cost. I have a large stock of the various kinds of Indian relics on hands but am afraid to send them too you for fear of their similarity to those already sent. I think I could select out 50 or 100 hundred flints.

Cinn. Jan. 27th 1873
Prof. O.C. March
My Dear Sir,

After a long delay by the gentleman who sold me the mound builder relic, it has been sent you. It cost me about $5.00 and I owed you nearly that amount. If you think the price is too high return it at my expense. It was found in a mound near Galipolis, Ohio. I can buy a mound builder's pipe, made of standard pipe, for $2.500 also a recent red clay pipe with wooden handle, for $5.00.
The pipe itself is about ten inches in length and is from Nebraska. I have a large lot of fine fleshy elegant in finish and material. Good grade ground and ungrooved. Most of the early flint relics are of the best quality. Would be willing to examine a lot. Choose what you care to retain and return the refused ones at my expense. It is not improbable that I will move from here in a few weeks and I am anxious to close out the present stock. Don't you care to exchange any relics?
Ginn Feb 17th 1873
Professor O. C. March,

Dear Sir,

I sent you today Box No. 1 list of contents in the box also on next leaf of this sheet. Will you send me books for broken axes, broken flints, and peelers? If I send another box of good specimens soon will advise you by letter.

Respectfully,

R. E. Hanley
