Prof. O. C. Marsh,

Dear Sir,

I have two papers for the Nat. Acad. on Dynamo-electric machines and on Incandescent electric lamps which can only be illustrated by experiments here. I would therefore like to ask the Academy to hold a session here on Wednesday 11th and also to lunch at my house on the same occasion.
Will you kindly further my efforts in this direction so far as you can.

Sincerely yours,

Henry Morton
My dear Prof. Marsh,

It will give me pleasure to act on that committee with Chandler.

Yours in haste,

Henry Morton
