Dear sir,

I have just learned of your illness and am writing to express my sincerest sympathy. I hope that you will recover as soon as possible.

Kind regards,

Prof. O. C. March,

Dear Sir,

I send you the head by express to I have done the best I could in taking it up. I do not think it is quite complete but nearly so. I have worked out as far as there was any chance of any ones. It is dark and will wet more in a day or two.

Yours truly,

W. H. Reed

Prof C C Marsh

Dear Sir, I wrote you a short note last night and got a letter and a pamphlet by last evening train. The hearse is all very bad from the back upper side of this diagram with its notes made in the quarry. The last box of bones from 18 feet are the nearest ones to the head just what they...
was I do not remember but think the was vertebra of small animal as you will remember the flesh of cervical vertebra that was exposed in the gulch below 18 east or south. This head came from within 8 feet of them and is probably of that animal. I did not get any thing from no last week it rained the first of the week and the last week spent in 18. We have a good piece of hay diet.

clear of it in no 3.

There is one thing that would save me a good deal of trouble that is to have a regular pay day so that I could depend on a certain time in the month to receive the check. I have to buy every thing for cash and the bills for the whole party amount to considerable and if you can fix the 16th or 20th for it you will greatly oblige your truly.

Yrs. Reed.
Corin May 18th 1881

Prof. O.C. March

Dear Sir,

Yours with check received.

Money, thanks.

Party does not have free freight.

I send you one caud.

Same with the

There is one mammal that I think is good and one small piece.

The dirt we are working is good.

That is full of small bones but the jaws
Turn out as fast as I could wish yours,

Yours truly,

W. H. Reed.
Come May 21st 78
Prof A C March
Dear Sir

I send you one can found by this mail. There is two or three mammals in it and one olingo and reptile. Those papers have not yet arrived.

Yours truly

W H Reed

P.S. Ashley still not come.
Coni May 25th 1881

Prof OC March

Dear Sir,

I send you one can of rice by this mail. There is no good manna in it and the cotton is poor. But it is the best I can get here and I have used up the tea roll you sent. no papers have come yet.

Yours truly

Dear Sir,
I send you by this mail one can of jaws and there is one good mammal in it and several pieces with the usual ants of reptiles.
I think Kennedy is going to quit and go back on the K R to work he says it is to do work. I have tried to persuade him to stay.
and he may not go.
I hope not.
I read the book except many thanks.
your's truely,

Oceanic's

I send you with this the bill for May. We have got a big job of clearing off dirt in no land and I am going to hire my brother (who is at work for me) moving the shanty for the Balisteo of this week. He will work for me all summer and if you have no
objections when I need a man for a few days in the quarries I will put him at work it seems strange that no paper come for that land if you cannot get one to take it will do it but had rather not as I may want to use my desert right but it is quite necessary some one should secure it as the man party is going to concentrate here some time this summer so I am
told will send a copy of laws by
hist mail yours truly

Prof. O.C. Marsh
Dear Sir:

I did not send any eggs this week as the Post master is out of stamps. I have sent 15 dollars for some. They will be up to night. I have quite a lot of sausages on hand. But no good manure. But several parts of James street.}

Sincerely,

[Signature]

Como June 11th/81

Prof. O C Marsh

Dear Sir,

I was offered the 6th of August. I think as long as you are at Fort Scott I have not heard from him for a long time.

I am glad to hear you have found something new. We find a good many fuses about. It does not seem to be very good. I had my brother help you cut down bank in
We & our got quite a lot of say shirt cleaned out
I received you one can of sarc by this mail you will surely

W. H. Reed
June 22, 1881

Prof. O.O. Marsh

Dear Sir,

I read your two letters yesterday and send you the last mail that I sent can by the last mail that continues to work and for the present I hope you have made arrangements so my check will come promptly for if matters should go as they did in 1878, in your absence
The work would have to stop for it is more than I will be responsible for if the act is run over one month. I will go to Saranac and attend to those papers as soon as they come.

Yours truly,

W.H. Reed
Come June 24th/81

Prof. O. O. March

Dear Sir,

I send you one can of James by this mail. I shall go up and work some in 18 as soon as the creek goes down so I can cross with the team and by the way I think I should have something for the use of the horses for they are at work every day in your service and I have
paid out eighteen dollars for shoeing and lariet ropes this spring and get nothing for them. Please consider the matter they give you one hour and a half more work to the man every day or some horses and a half every day it is quite an item and I think they should draw $150.00 a month.

Carlin says forty-five dollars a month to do his hauling and they only use the team one day every week.
June 30th /81

Prof O C Marsh
Dear Sir:

I sent you one ear
mammals and reptiles
there is few good
ones in it (one
hatchet tooth)
I send you with this
the bills for month
of June. I did not
charge any postage
for May and put it
all in this month.
I hope you have read
arguing much so the
check will come by
the 15 of the month
for I need the
money as fast as
it is due for I have
to pay cash for every
thing yours
truly.

W H Reed
Como July 8 1881

Prof C C Marsh

Dear Sir,

There is nothing new we are still at work in no 9 but we will commence in 18 tomorrow if all goes well.

Kennedy says he will quit as soon as he finds you have not made arrangements to stay promptly and I shall not work longer than the 23rd of this month if the check does not come.
we got several mammals last week I will send one can of sawdust by this mail.
yours truly,
H.H. Reed
Come July 9th 1876

Prof O C Marsh

Dear Sirs

I send you by this mail one can of saws from no 9. There is nothing that looks to be very good in it.

I am still dividing the work between 9 and 18 now I have taken out some good bones in 18 middle under Stegosaurus 4 where we worked last year. The Bone are
Kennedy says if the check does not come he will quit the 20 of this month. I shall work on till the 1st of Aug. with the rest of the party. Then if I do not hear from you I shall go with a party of hunters as a guide for they will see me good pay. And my money at once as it is earned.

Yours truly,

[Signature]
Come July 19th, 81.

Prof. D C Marsh,

Dear Sir,

I need your letter to say with checks for one hundred and seventy-five dollars. I have got quite a supply of jaws on hand, but was out of money and had to return. My brother that was working for you got hurt today; died last Friday. It will fall the money I could raise to pay his.
funeral expenses and doctor Bill and left me in debt, and if it is possible send me the check for July as I will get it by the 15th of August.

I found a taurian to day in the Cretaceous rocks below the shale rocks and the shale above them. The bones look like stegosaurs. There is several vertebra and one limb bone and the limb bone look like a femur in size.

Yours Truly
J. H. Keel
Comed July 25th 1881

Prof O C Marsh

Dear Sir,

I sent you 3 cans small Bones from no. 18 east yesterday. I send 3 more easts by this mail. I got them out last week in the north end of 18 east near where the large head came from. There was no other Bones near then (that is large Bones) but some of them may be the Bones of Sauare.
Shall work in us this week or part of the week yours truly

W.H. Reed

Rec'd. July 23, 1881. 6 Cans. 1148. 87 + 148. 64
W. H. Reed, Corro. Small bones from 2. 186.

July 23 rd 1881. (6 Cans. Small bird. Corro.)
(from 5 end of 63 East)
Como July 29th/81

Prof O C Marsh

Dear Sir,

I send you by this mail one can of saws. There is only one hammer in it. I have opened my twenty feet on the west end of one reptile. Sawo are quite plentiful, but mammals scarce. It is a big job to cut down in the old quarry. The bank is about twenty feet high all the length of it.
I got those papers for the land, but have not time to
laramie yet for there is a mistake. They are for the north west
one fourth of section four
township, 22 and the
land you want is in the township
east of twenty two

I will send the papers
and a map for
Williston by the
next mail

yours truly

W. H. Reed
Como July 31st 1881
Prof. E. O. March

Dear Sir,

I send you herewith the bill for month of July. You will likely wish to know how my brother met his death. We had his clearing of six or 9 and the wind was very high and the dirt was very bad, so he started Sunday morning to go to rock creek to wash up with Phelps. He thinking the water was deep...
took off his clothes and
slid marching on the
Bottom and causing
Paralysis from
the head down. He only
lived a short time.
I have bin so very heavy
expense for his Doctor
Bill and funeral and
need my wages as fast as
they are due. The shortage
in the last check has bin the means of
giving me several duns
and its very aggravating.
Hoping you will
get the check along as
soon as possible. I am
yours truly

W H Reed
