Chesterhill

Mr. Mant

I have a few relics taken from the scene around that Mr. Chandler took in.
I had a copy of Pope in St. Como's at the time Mr. Chandler came back, and I sent it in to him to go and get what he could, the cold weather prevented him from getting many, but such as I have I would be glad to dispose of, the correct of the passages.
1. A dish 4.1/2 inches in diameter with four spots; this had a hole in the bottom and was cracked in many places.

3. A dish 3 1/2 inches clean.

4. A dish with two handles. 3 1/2 inches clean.

5. A handle broken off a large dish in drying it up. It is a bird's head.

6. A bottle with cow-hit on face.

7. Two shell ornaments, then horse, east a circle with a cross beside one of them. It appears to have had lines extending at somewhat like the drawing, beside the above there are a number of beads, a few small arrowheads, and a piece of a large dish.

I would like to get $30.00 for the lot. They cost me 12.44 to get them.
I write a week's time to Mr. Pope in copy from St. Louis. I would like to hear from you if you write them. My address is at Chestnut Hill. 

Yours truly,
