The Philadelphia & Reading Coal & Iron Co.
Room 3 Clark Building,
No. 87 Church Street,
New Haven, Conn. Nov. 15, 1877

Prof.
O. C. Marsh

Sir,

I send by Beaver a plaster cast of "tracks" found in the sub-carboniferous rock near Pottsville, near the place where the wood is found is about half a mile from the "nests" of the coal.

This cast is presented to you by

If you desire to see some good specimens of coal "flora" I have quite a number in my office here.

Yours truly,

[Signature]
