

LIST OF MEMBERS OF THE LEPIDOPTERISTS' SOCIETY

October 1949

The list is arranged alphabetically by nations, and by states or provinces in the U.S.A. and Canada. State, province, and nation names are here omitted in the address of each member. The address is followed by the lepidopterological interests. Where only "RHOP.", "MACRO.", or "MICRO." appears, the interest is general. "LEPID." is used where interests include all three of the above groups. Following the interests among taxonomic groups are the other aspects of lepidopterology in which the member is interested. The member's name preceded by an asterisk (\*) indicates Charter Membership; his name in capital letters indicates Sustaining Membership. The word "Nearctic" here means America north of Mexico. For uniformity "Phalaenidae" is used for all cases, even though the equivalent name "Noctuidae" had been placed on the membership card by some members. Similarly, Speyeria, Boloria, etc. are used for the Nearctic region instead of Argynnis, Brenthis, etc. The following abbreviations are used:

LEPID. - All Lepidoptera	Coll. - Collection
RHOP. - Rhopalocera (butterflies)	Ex. - Exchange
MACRO. - Macro-Heterocera	esp. - especially
MICRO. - Micro-Lepidoptera	} (moths)
