### ZOOLOGICAL NOMENCLATURE

Meetings of the International Commission on Zoological Nomenclature will be held in Copenhagen, Denmark, during the meeting of the Fourteenth International Congress of Zoology from 5-12 August 1953. FRANCES HEMMING, Secretary of the Commission, has announced the holding of a "Colloquium on Zoological Nomenclature" from 29 July to 4 August, immediately prior to the opening of the Congress. The proposed agenda of the Colloquium includes preliminary consideration (1) of the draft of the revised International Code, recently completed by jurists, and (2) of questions relating to amendments to the Code submitted since the revision in 1948. Attendance at the Colloquium will be by invitation, with as thorough representation as possible from different parts of the world and from specialists in all possible parts of the Animal Kingdom. The draft text of the International Code will be published in the *Bulletin of Zoological Nomenclature* before the Colloquium opens. Lepidopterists interested in attending these sessions should communicate immediately with Secretary HEMMING (28 Park Village East, Regent's Park, London, N. W. 1, ENGLAND).
