BACK VOLUMES OF THE NEWS AVAILABLE

The Treasurer reports that complete sets (in some cases very few) of the following volumes are available to Society members at \$3.00 each:

Volumes 3, 4, 5, 6, and 7.

Only incomplete sets of the earlier volumes are still in stock. For Vol. 1, numbers 6, 7, 8 (final), including the first Season Summary and the indices, are for sale for \$1.50. For Vol. 2, numbers 1, 3, 5, 7, 8, 9 (with indices), and Season Summary supplement may be purchased for \$2.00. All are postpaid and should be ordered directly from the Treasurer.

There is an urgent need for complete sets of Volumes 1 and 2 to fill orders from university and museum libraries in many parts of the world. Members who have one or both of these volumes and no longer need them would render a special service to the Society by forwarding them to the Treasurer. Such sets would be permanently preserved, and their sale would help reduce the troublesome Society deficit.
