<i>Thymelicus lineola</i> in New Jersey	174
<i>Turnerina</i> Freeman, new genus	84-85
<i>Uitlandsche kapellen</i> , dates of publication	195-198

NEW NAME FOR THIS JOURNAL

This is the final issue to appear under the name *The Lepidopterists' News*. The proposal for new publication arrangements (see pp. 157-8 of this volume) has been adopted, and all non-institutional subscribers (i. e., members) have begun receiving the new *News of the Lepidopterists' Society* edited by Dr. J. W. TILDEN. The present periodical will remain about as before, but beginning with volume 13 it will be titled: *Journal of the Lepidopterists' Society*. Material of relatively temporary value has been shifted to the new *News*, and longer papers than before (up to 20 pages) will normally be accepted for the *Journal*.

C. L. REMINGTON
