

## MANUSCRIPT REVIEWERS, 1997

The merit of a scientific journal depends on the quality of its reviewers as well as its authors, but the former are usually unknown to readers. The *Journal* relied on the expertise of 50 reviewers last year to provide 71 evaluations of manuscripts. It is with much gratitude that the *Journal* acknowledges the services of the people listed below from whom manuscript reviews were received in 1997. Those who reviewed two or more manuscripts are denoted by asterisks.
