1970 MEMBERSHIP LIST

The next number of the NEWS is the biennial membership list, which will be published by the Secretary in a format like the usual issues. We regret that the financial squeeze has precluded our presenting the list in booklet form with a cover, as in 1968.

If you have a change to make relative to your address, title, interests in Lepidoptera, etc., please send it right away to: Dr. J. C. Downey, Dept. of Biology, Univ. of Northern Iowa, Cedar Falls, Iowa, USA, 50613.

MEMBERSHIP DRIVE

Much discussed at the Annual Meeting was our need for more evangelical efforts on the part of all of us. Some areas of the world and USA are poorly represented. Some specialists suffer from lack of kindred spirits. And our exchequer could really stand a shot in the arm just now. If each of us would try to *BRING AT LEAST ONE NEW MEMBER* into the Society before June, 1971, we might make it to the 1,500 mark. So don't put it off — a new membership sent in to Col. S. S. Nicolay right now will probably be in time for the new Membership List.

ACKNOWLEDGMENTS

I wish to extend heartfelt thanks to E. J. Newcomer for his extensive help in getting the new editor off the ground. Also, many thanks to the members of the Editorial Committee of the NEWS who have spent long hours in correspondence and compilation of the SUMMARY. We welcome Paul A. Opler as Associate Editor, with special function of overall supervision and preparation of the Annual Field Season Summary. Ideas regarding the SUMMARY should be directed to him.

—Editor.

CAPSULE MINUTES OF 1970 ANNUAL MEETING

The 21st Annual Meeting of the Society was held in conjunction with the 17th Annual Meeting of the Pacific Slope Section June 19 – 20 in the Nevada State Senate Chambers, Carson City, Nevada; Peter J. Herlan and staff of the Nevada State Museum were gracious hosts. About 53 members, including representatives from Massachusetts and Florida, registered. Kent H. Wilson of Oklahoma was elected Secretary Pro-tem as the first business session convened at 10:05 Friday morning. The program of talks included a symposium on Lepidoptera of the Great Basin (O. E. Sette presiding) on Friday afternoon, two sessions of submitted and invitational papers on Saturday (Jerry A. Powell and J. W. Tilden presiding) and a Sunday morning symposium on Conservation and Endangered Species (moderated by E. J. Newcomer). A second business session was also held Sunday morning with reading of the President's letter and passage of resolutions. The annual banquet Saturday night featured a slide program by John Emmel of remote collecting sites in Nevada and some of the choice Lepidoptera collected there by him and Oakley Shields.

Business transacted in the meeting was as follows:

1. The Pacific Slope Section will hold its 1971 Annual Meeting in Santa Barbara around Labor Day (August 27 – 28 preferred). The arrangements committee consists of Paul A. Opler (Chairman), Robert Langston (Program) and Nelson Baker (Local Arrangements).
2. The 1971 Annual Meeting of the Society will be held June 18 – 20 at the University of Louisville, Louisville, Ky. C. V. Covell Jr. will be in charge of local arrangements, and will serve with John Downey and Lee D. Miller on the Program Committee. Neotropical fauna was suggested as a theme.
3. The Society accepted the invitation of Roy Kendall to hold the 1972 Annual Meeting at San Antonio, Texas. As this will mark the 25th Anniversary of the Society, a celebration at the meeting and a special publication in the form of either an issue of the Journal, or a supplement, were authorized at Kendall's suggestion. F. M. Brown and H. K. Clench were suggested as possible writers/editors. They will be recommended to Kendall, who will be overall chairman of the meeting and of a specially formed Finance Committee to seek funds for the publication. Robert Hewitt, on behalf of Hewitt Insect Sales, offered \$100 toward cost of the special publication.
4. The Allyn Entomology Museum of Sarasota, Florida, offered to host the 1973 Annual Meeting. (A decision on a site for 1973 will be made in 1971).
5. Honorary Life Membership candidates were nominated and discussed. Two nominees have been presented to the Executive Council for their action.
6. Discussion was held of problems involving complaints from several members regarding transactions resulting from Notices in the News. Some who have responded to ads have not had satisfaction, and some advertisers have also been unhappy over transactions. No formal action was taken.
7. Stan Nicolay gave a comprehensive Treasurer's Report, outlining in detail the financial condition of the Society as of December, 1969, and projecting an estimate of costs through 1970. In short, we are in grave financial difficulty, and will not have sufficient funds to cover expenses through this year. Slow increase in

membership and rising costs of printing and mailing publications account for the problem. A number of undesirable steps to cut costs were discussed: (1) reduce NEWS from 8 to 4 issues yearly; (2) eliminate the Field Season Summary; (3) eliminate Supplements; (4) eliminate gratis reprints to JOURNAL authors; (5) raise dues; and (6) eliminate Society "gift memberships" to individuals.

8. The group voted to eliminate gratis reprints to Journal authors, to eliminate gift memberships, and to recommend that the Executive Council raise dues beginning in 1971 as follows: Active members, \$10; Sustaining Members, \$20; Life Membership, \$150; Institutional Subscriptions, \$15. (Student Memberships remain \$5 per year).
9. Mr. Arthur Allyn offered to provide funds up to \$1500 if a deficit actually exists at the end of the year, providing the above three measures are put into effect.
10. A discussion ensued regarding the role of the Society in conservation movements. No action was taken, especially in light of a special Conservation Committee appointed by 1969 President Hardwick (made up of W. E. Sieker, Chairman; M. C. Nielsen; J. H. Shepard; and A. B. Klots), a report from which has not yet been made available.
11. The Resolutions Committee, comprised of Jo Brewer, Chairman, John Emmel and John Downey, made its report. The following resolutions were unanimously adopted:

"Be it resolved that the Society:

- 1] Formally express its sincere appreciation to the Board of Trustees and officials of the Nevada State Museum and to J. W. Calhoun, Director of the Museum, for their hospitality to the Society and for their many courtesies.*
- 2] Extend thanks to Peter Herlan, Curator of Biology and Official Representative of the Museum, for his thoughtful planning, executing and overseeing of the arrangements for the Annual Meeting and solicitude for the members, and*
- 3] Express sincere appreciation to Mrs. Barbara Herlan for a most delightful evening of relaxation and fellowship enjoyed by members of the Society and their guests at her home.*
- 4] Extend appreciation to Dr. J. W. Tilden, David Bauer, and Peter Herlan of the Program Committee and all others who contributed to the success of the meeting, including Pamela Crowley, Gary Thompson and Peter Bilau.*
- 5] Be it further resolved that the members of the Lepidopterists' Society would like to express their deepest thanks to Dr. Jerry Powell for his dedicated and efficient efforts as Editor of the Journal of the Lepidopterists' Society over the past seven years.*
- 6] Be it further resolved that the members of the Lepidopterists' Society would like to formally express their deepest thanks to Mr. E. J. Newcomer for his dedicated and efficient efforts as Editor of the News of the Lepidopterists' Society over the past six years.*

We further move that the Secretary be instructed to write suitable letters of thanks and appreciation to the Nevada State Museum, and to Dr. Powell and Mr. Newcomer."

Respectfully submitted,

Kent H. Wilson,

Secretary Pro-tem.

(with modifications by John Downey and the editor)

NEWS NOTES — —

OBITUARY: Roy O. Kendall reports that Mrs. Ellen Schultz Quillin, Society member from San Antonio, Texas, died suddenly in her home on 6 May, 1970. She was a noted author and a founder, Director, and Director Emeritus of the Witte Memorial Museum until her death. The Mayor of San Antonio declared 30 October, 1970, as Ellen Quillin Day in recognition of her service to the City, and her many contributions to science. As a Lepidopterist she and her husband accumulated a large local collection, which has added materially to our knowledge of the species occurring in the San Antonio area.

Julian Jamulon reports the celebration by the LEPIDOPTEROLOGICAL SOCIETY OF JAPAN of its 25th Anniversary at its meeting in Kyoto City May 2 — 3, 1970. We wish this active and enthusiastic group hearty congratulations and continued success!

1969 FIELD SEASON SUMMARY: [More additions and corrections.]

Zone 1: ARIZONA: R. S. Wielgus collected in December larvae of what emerged this July 5 and 20 as 2 females of Megathymus ursus. Food was Yucca baccata. Collection sites were in Maricopa and Gila counties. This constitutes a range extension for ursus.

ZONE V: INDIANA: (p. 13) Shull's records of P. mystic and P. satyrus are new state records. Correct county records (lines 5 and 6) to read: Wabash Co., E. brizo, 20 Apr.; E. phaeton, 5 July; and P. massasoit, 18 July; Kosciusko Co., E. icelus, 6 May; N. lherminier, 3 July; L. borealis, dozens in July; P. massasoit, 26 July.

ZONE VI: FLORIDA: p. 14 (next to last line). P. polydamus (W) not (L). (Last line). Add: Papilio aristodemus ponceanus, one male, vi/3, Key Largo, (Flaschka). Page 15, line 1: Delete "Papilio aristodemus ponceanus." Covell and family collected in southern Fla. Dec. 21 - 27. Butterflies good, with warm, dry weather. 42 spp. taken, mostly at Collier Seminole St. Pk., Everglades Nat. Pk., and Key Largo. P. frisia, U. proteus, and C. ethlius common at Collier Sem.; P. leo and S. columella good records there. A. floralis and D. julia were good captures at Everglades N. P. On Key Largo, S. martialis, A. drusilla, E. tatila and P. pigmalion good catches. L. cassius theonus more abundant than H. ammon bethunebakeri at this time. Not much building on Key Largo yet; much of land being kept off market by big holding companies. Moth collecting for whole trip was very poor, partly due to full moon.

ZONE VII: MASSACHUSETTS: Michael Cady took 5 Satyrium acadica July 4 at Norwood and a female Lycaena thoe near Norwood.

ZONE IX: SINALOA: The specis of Papilio have now been determined as: androgeus laodamas procas (NOT B. belus), pharnacae (NOT anchisiades), photinus, montezuma, and polyzelus. Laodamas, photinus, and polyzelus are probably new STATE RECORDS (Welling M.).
