

Chicago Ill. July 30/902

Charles E. Beecher Ph. D.

Professor Historical Geology

Yale University New Haven Ct.

Dear Sir:

I have shipped, by freight, a box for Yale University, containing a pair of stag heads with interlocked horns, which were captured, I am informed in their contest for victory. Rev. J. H. Trinchell my classmate said you would be the proper one to care for them. I take the liberty of troubling you to place them in that department appropriate. Freight charges are paid. Other charges if any please advise me and I will remit. Hoping they reach destination safely and thanking you for your trouble,

Remain Yours truly

Joseph Hyde Andrews. Yale 1859
