I remain  
Yours Obedly  
for D. Braccioni

Professor Marsh.

D. BRUCCIANI,  
GALLERIA DELLE BELLE ARTI,  
Russell Street, Covent Garden.

LONDON, W.C.

THE MUSEUM of the ROYAL COLLEGE OF SURGEONS OF ENGLAND contains a series of Casts of the interior of the cranial cavity, representing exactly the form and size of the brain (when covered by its membranes) of men of various races and many other species of animals. With a view to diffuse the information to be derived from the study of these casts, and believing that many educational institutions will be glad to avail themselves of the opportunity of possessing them, the Council has authorized the issue of copies at the lowest cost at which they can be reproduced, which will partly depend upon the number likely to be required. Applications upon the subject should be made to the Conservator of the Museum, or as above.

*List of Casts of the Interior of Crania of which Duplicates can be obtained.*

[The numbers prefixed to the names are marked on the casts: the numbers after the names refer to the specimens in the Osteological Series from which the cast was made.]
