

SUBJECT: Publications.
Recd.

Office of the Chief of Engineers,
United States Army,

Washington, D. C., Oct. 27, 1891.

Prof. O. C. Marsh,
Yale College,
New Haven, Conn.

Dear Sir:

As you requested by letter of April 15, 1881, 150 copies of Vol. 7, Survey of the 40^m Parallel, have been since that date and are now retained subject to your order.

No requests having in the meantime been received from you relating to these copies, and the space at the disposal of this Office for storage being quite limited, your wishes as to the disposal of these books were requested August 21, 1890.

To this Mr. R. W. Westbrock made reply; but as it appeared therefrom that you were then absent from New Haven,

further action was suspended until you could be heard from.

Additional restrictions having since been placed on the storage space allotted to this Office, I am obliged, with regret, to again bring the matter up, and to request to be informed of your wishes.

Very respectfully,
Your obedient servant,
Wm Lincoln Casey
Brig. Gen., Chief of Engs.

1445 - G.R. 1881.

Gen Casey
150 Val, Idout
(Ans Oct 29. 81)
