

2-3
New York May 10th 86

Dear Sir

I have received the case
of pottery and I thank you.
Will you please examine
with attention the collection
of photographs I gave you,
so that you could tell me
which ones of the casts they
represent you would choose
for your museum and
and amounting more or less
to the value of the collection
of 500 vases of which you
spoke to me -

if I insist upon the matter,
it is because as soon arrived
in Paris I will put my
men at work, taking casts

out of my moulds for the
Washington's museum, for the
museum of Vienna and for the
Trocadero; I would like at the
same time to make the ones
you would choose, so that, all
being done at once, it would
be much more convenient and
cheaper, and in that case I
would count you the square
meter 20 dollars instead of 25
no matter at what time you
would take the collection -
the casts would remain ready
at your disposition.

please write me about it in
Paris and believe me

Yours very truly
Desire Charney

Dear sir

I send you by same mail. two
pamphlets and I have the
honor to remember you my
letter of may 10th about the
exchange of the collection of
the Chiriqui Vases with some
of my casts - have the
kindness to answer me; the
minister of public instruction
would be very glad of that
exchange and for me I
should be very grateful -

I am dear sir yours
very respectfully

Disire Charnay
