J. C. Marsh.

Sir: Your letter recd
I had some "bone specimens" from
Autelope station. but they have been
misplaced and perhaps destroyed,
should they be found I will send
them to you. I know of no one
here that have any specimens

Respyrs

New Haven

Dear Sir The "Bone

specimens" have been found and forwarded to you by Express this day. If the specimens are of any service or value to you you may retain them. I know of no other specimens from Antelope station

Respy yours

O. C. Marsh Esq

Dear Sir:

I have sent you a box today containing some specimens which may be of some interest to you.

Should I get hold of anything in the future which would be worth forwarding would do so should you desire it.

Respectfully Yours
J. H. Congdon

Prof. O. S. Marsh
Yale College

Dr. Sir:

The specimens
shells referred to in yours of the
14th ult were found at or near
Point of Rocks 250 miles east
of Salt Lake City - 40 feet below
the surface in a cut on the line
of the U. P. R. R. Should I become
in possession of anything more that
would probably be of interest will
forward to you.

Truly Yours
J. H. Congdon
