I a short time since
received a letter from thee
in regard to some remains
found in the Mound at my
place - They are I fear of but
little if any value - but such
as they are thee is welcome to
them - They were so very soft that
we could not remove them ~~at~~
except in small pieces - most of
them not exceeding an inch
in length - They were scattered
through the whole length of the
pit - which was sixteen to
seventeen feet in length - I
should have answered thee
sooner - but have been ~~very~~

3-53
waiting to dig again to see if
we could find any more
if such small pieces are
worth any thing to thee - I
will gladly forward them -

Please accept my thanks
for pamphlet sent to me -

If any thing of value in shape
of Bones are for in my mail
after this I will secure them
for thee -

Thy Friend
