ALUMNI NOTES.

'60—At a meeting of the President and Fellows of Yale University, held in New Haven on Tuesday, May 26, 1896, the following minute was adopted:—

"The Corporation of Yale University desires to congratulate Professor Othniel Charles Marsh upon arriving at the thirtieth anniversary of his professorship in health and strength, and to wish him a continuance of the same for many years.

And they desire further to express to him their appreciation of and their profound sense of obligation for all that he has accomplished in the advancement of science, as well as for the reputation of the University, by creating and building up under its auspices the department of Paleontology, and by generously carrying on the elaborate and extensive system of original research, exploration, and discovery, by which he has enlarged the boundaries of scientific knowledge and has brought honor to the country, to the University, and to himself."

At a Meeting of the President and
Fellows of Yale University, held in New
Haven on Tuesday, May 26, 1896, The
following minute was adopted:

The Corporation of Yale University de-
sires to congratulate Professor Othniel
Charles Marsh upon arriving at the thir-
tieth anniversary of his professorship
in health and strength, and to wish him
a continuance of the same for many years.

And they desire further to express to him
their appreciation of and their profound sense
of obligation for all that he has accomplished
in the advancement of science, as well as for
the reputation of the University, by creating
and building up under its auspices the
department of Paleontology, and by gener-
ously carrying on the elaborate and ex-
tensive system of original research,
exploration, and discovery, by which
he has enlarged the boundaries of
scientific knowledge and has brought

honor to the country, to the University, and
to himself.

A true extract from the Records.

Attest,

Franklin Bowditch Dexter,
Secretary.
