My dear Dr. Marsh:-

I have been wishing to write
to you this note for two or
three years.

If you will look at p. 877 of
Pryant's history, - which I found
by this post, - you will find
a speculation of mine on the
subject of notes in America.

When I sent this memoran-
dum for Drake to Mr. Bancroft
in California, - he only replied
"Drake lied." But Drake had
no reason to ~~be~~ lie.

I know that you know more
about these houses than any
one does, — and if you can
furnish me either with a note
on them, — or a reference to any
of your own reports, I shall be
greatly obliged.

I have no apology for writing
to you but that we are both
members of the Antiquarian
Society, — and this is certainly
a curious subject of American
antiquities.

With great respect, Yours truly

Edward E. Hale

My dear Cousin, —

I want to take advantage of my visit to New Haven to see all Mr. Marsh likes to show of his "skeletons of brasts and beasteses" I suppose this may require some permission from him given in advance; and as I can only spend Monday in New Haven, may I ask you to see if you

can obtain such permission for
me? Of course, if they do not
like to show the fossils, I do
not want to ask anything
anything that is improper.

Truly yours,
Edw. E. Hale

My dear Dr. Marsh:-

The day I was with you
my little granddaughter, 3
years old was writing a letter
to Mrs. Hale. I enclose you
a tracing from an animal
in it.

How is that for
a Triceratops, by an artist
who never saw one?

Truly yours

Edw. E. Hale

I am talking all the time
about the wonders you showed us
