My dear Marsh,

Please send me your photograph in exchange for the one I enclose. I have just been rearranging my album. I want to fill up my set of scientific friends.

You have heard, of course, how Hope was not elected Vice President of the Acad. Nat. Sc. after a rigorous canvass in his own favor. He wants badly to be Pres. of the Am. Assoc. Adv. Sc., but I hope his character is sufficiently known to prevent such a disgrace.

Yours sincerely yours
J. L. Leconte

I enclose other copies of photographs for Newton, A. M. S. & Brewer, please.
