EYEBURY,
PETERBOROUGH

3rd. Sept. 1885.

Dear Mr. Marsh -

Thank you very
much for your book on
Dinocerata brought me
on Saturday by Mr. Woodway
& also for your kind promise
of other publications -
we had a long day at
the bones but Mr. J. W.

1105
11329
could not make up his
mind to what they belong -

Your bones are all in
boxes - & have been for a
week - but I think the
boxes want strengthening
before they go on rail &
I have been rather busy -
but will see to them at

11330
once - you said you would
have them repacked for
America - I have put the
best series of Ichthyosaurs
in a box to itself - but
will number the boxes &
send list of what is
in them -

Faithfully yours

Alfred Lucas.

4th Sept 1858.

Dear Mr. Marsh -

I have just finished
fixing the boxes with your
fossils to go to the British
Museum - They will go
by Midland Rail on
Wednesday night - and
should be delivered some
time on Thursday - there

are six small boxes -
 No 1 & No 2. Contain the
 unwashed vertebrae &
 other odd bones all mixed
 No 3. A femur of Ichthyosaurus in
 4 fragments & 20 paddle bones
 associated all marked
 with a ①.

A femur of do & one bone
 marked ②.

A do? & 3 do pleurosaurs
 marked ③ -

22 associated vertebrae
 of Ichthyosaurus not marked

No 3 cont?

11333
[3]

19 vertebrae & 2 paddle
bones of Ichthyosaurus
marked (4).

No 4. 19 paddle bones & 1 femur
of Ichthy marked (5)
a number of other
odd bones -

No 5 The set of associated
plesiosaurus
marked (24)

No 6. The set of Ichthyos
with no mark but
all associated -
