

15294
Dear Sir

I much regret, not to have been at Munich, when you passed there in the last month. It would have interested me indeed to see the fossils you had acquired at Solenhofen, as we did not more buy any thing from this locality the last 6 years.

I thank you very much for your communications of the worm like fossil, which is a very singular thing. I should much like to see it. Still more I should be curious to see the specimen of Pterodactyle you bought at Eichstedt. Do you not in-

send to publish a figure of it?

I shall be much pleased to see
You at Munich on your way
to Paris. Have the kindness
to tell my compliments to
Prof. Ferd. Roemer.

I remain with my best regards

Yours

very truly

München 31 Octob. A. Appel.
