My dear Professor Marsh

Pray accept my warmest thanks
for the extremely interesting and
precious specimens of *Ficarthrus*
with appendages, for the beautiful
plate representing the complete animal
and for the description of them by
Mr. C. S. Keefer.

It is very important an acquisi-
tion for our University Museum
and I am much obliged to You

for this new mark of your
attention.

Mrs. Marsh-Paulow send you
her heartiest compliments

Yours affectionately

Miss Paulow
