My dear Professor

I spoke with interest
as to the occurrence of 8
toed horses in America.
There is an excellent living
example in the "Dionne
Museum" of Boston at the
present time. The second
hoof on each leg is completely

Developed & Shod with Silver
Shoes. Then just come from
An Examination of it.

Lady Playfair & I leave
Boston on the 15th to sail on
the 17th for England. We had
hoped to have seen you
before we left, but unless
Mr Lappen is in Boston

It will now be difficult.
I have just heard from my
friend Mr Henry Draper of
your return to this Country

Yours truly

My dear Professor Marsh.

Both Lady Penfance
& myself have been delighted
with your wonderful book
on the Dinosaurs & thank
you very heartily for so
kindly including us among
the recipients of your work.

It must have been an immense
labour not only to procure,
but to adjoin the fragments &
restore the visible forms of
these amiable looking monsters,
and I congratulate you on
the completion of your work
in this one division of your
many researches.

I recollect well how

pleased John Bright was
with your Loothe birds, when
we three smoked a cigar
together in the House of Commons.
Since then I have been
shuffled by age into the Upper
House of Lords, but I am
not yet good accustomed to the
change. Lady Fairfax's Servant

With kindest regards.
