Brooklyn Nov 26 1898

Prof. O.C. Marsh
Yale University
New Haven Ct.

Dear sir.

Your valued favor of 22nd inst.
was received promptly.

For the last four weeks I have
been night nurse for my young heir
who has had a very severe case of
Typhoid fever and we are running
into my very busy season so I feel
almost played out, and do not
feel able to answer your letter as
I would like.

I send you a photograph taken
in the Imari mountains island of
Kishieu where you will see the
process of polishing by water and
friction after the style of nature
on the Shingle beach. Please
return this.

If agreeable to you I will
prepare a talk for you in
New Haven (showing about 200
specimens) say early in February
for compensation of One hundred
Dollars and Twenty five Dollars
for expenses

Yours truly
George E. Saurin
