Buffalo March 28. 77

Prof. O. C. Marsh

Dear Sir.

I have at length sent to Mr. Fairchild for the fossils, and ship them to you by express today. Mr. F. neglected to bring them to me & I felt some delicacy about sending for them wh. accounts for the delay.

I send also a mass of fossils from A. S. Smith. He broke them from rocks in Cattaraugus Co. N. Y. about 50 miles from Lake Erie & about 700 ft. above the lake. He has had them about 12 years.

I do not suppose they are of any interest but send them at Mr S.'s request.

Respectfully yours

Geo. P. Sawyer
