

Andover, Mass.

June 23rd 70

Prof. Marsh:

My Dear Sir:

A brother of mine, who has been a student in the Andover Scientific School for two years, ^{since his} after graduation from the college, goes to Germany to continue his studies. He desires specially to study Chemistry - Analytical, ~~Physical~~ Physical - I take the liberty of consulting with you, in his behalf, as to the best teachers & places of study in Germany for him. I hoped to see you in person when I was in New Haven, but learned that you were out of town - If, without too much trouble, you can answer the question I have proposed, I shall esteem it a great favor.

Yrs. very truly,

Egbert C. Smyth.

Mrs. S. & Miss Dought with my brother & myself expect to visit Eng. & Germany this season - We leave here July 8th -
