# University of Kansas.

Lawrence, Kansas, March 18<sup>th</sup> 1879.

Prof. O. C. Marsh

Dear Sir:

Not having a "characteristic specimen" of the dermal surface of *Sauvian* to spare, I mail you today a copy of the Transactions of our Kansas Academy of Science containing a plate which will give you an accurate idea of the scales. I had expected to have the Transactions in hand more than two months ago but an unavoidable delay has occurred.

Very truly yours,  
H. A. Snow.
