

Williamstown, Mass.

Dec. 23, 1867

Dear Professor,

Although by
 sending you the speci-
 mens which you
 desire to borrow, in
 order that you may
 describe it, I lose
 the opportunity of describ-
 ing this species, still
 I feel that perhaps it
 is ^{under the circumstances} my duty to send
 it; and therefore you
 may expect it soon,
 and I leave it for you
 to appreciate in such a
 way as you ^{may} think proper.

Yrs truly

Samuel Secor

Please return the specimens
 as soon as the species is published.

Prof. S. Tenney, Moravia
Ans. Jan 16th

Champaign, Illinois.

Feb. 11, 1870.

Dear Professor Marsh:—

I cannot comply with your request to send you the remaining teeth of the Mosasaurus, till I return East, which will not be for ^{more than} _{one} month, at least.

I had had a letter from Professor Kerr, also one from Prof. Dyer, asking for the North Carolina fossils. I wrote them that our ~~acquaintance~~ acquaintance of the specimens which I had ~~made~~ made to you, nothing could be done except that we all could come to

some mutually satisfactory
agreement in regard to
them.

I have pretty much decid-
ed that under no cir-
cumstances shall I allow
any more of these to be
returned from the Brit-
ish. I presume you
will be written to
by both Cape and
Harris and they above
will show you what I
have said to them.

Will you ^{please} do me
the favor to write me
immediately, and tell
me the best English
work on the Trichina
Direct to me at
Champaign, Ill.

Yrs truly,
Sabinus Tenney

Dear Prof. Marsh. —

I am stopping
here for a day or two.

I think of running down
to see you a few minutes
tomorrow afternoon. If you
are to be at home tomorrow
afternoon, and can see
me, please drop me
a line, or telegraph me
so that I can get it early
tomorrow morning at the
fastest.

Respectfully,

Samborn Tenney
