for

Hearing from Dr. Hector that you are desirous of obtaining the skeletons of New Zealand birds, I am willing to supply you with either the whole bird in spirits or the skeleton, the flesh simply cut off. I am engaged in collecting in other branches of Natural History and enclose you a price list; should you or any one you know be desirous of purchasing I shall be glad to supply the articles - The bird skeletons if you want them please mention the price you are willing to give; some of the birds are rare such as the Kiwi, Takahe, & Hoiho.

I remain for

Yours truly
Henry D. Gravens
