Prof O. C. Marsh

Dear Sir:

The two  
lots of reading matter received for which accept thanks.

They have proved to be a source of great pleasure to us these long winter evenings.

Your friend the young "Buffy Hunter" has grown wonderfully since you were here. He can run all over the country and says many words quite plainly. With best wishes of Mrs U and myself for your good health I remain,

Yours,  
W. H. Utterback
