Dear Mr Marsh

Yours of the 5th reached here
also the one of former date
and right here let me beg
pardon for not answering before
as I have been very very busy
also have been work in my
quarry just above the layer of
stone that contained the former
bone fossil. I have now reached
there and have taken out several
blocks that I have saved out,
as I am in doubt about there
containing bone, will hold them
until you find time to come to
Buckland. Should you know

1930
the day previous to your coming
please drop me a postcard as I
would like to be home when
you are here. am keeping a
sharp lookout not to lose any
thing that will be of value to
you. Mrs Wolcott wishes to be
remembered to you. Hoping to
see you in Buckland in the
near future & remain.

Very Respectfully Yours

Dear Sir

Your letter of the 18th received and noted and should have written you before but have been very much driven with farm work.

I am sorry to say I have not found anything in the quarry of lab that is of interest to you. However I am keeping a sharp lookout and am now gradually working down on to the layer where we found the last fossil. and will write you whenever I find any remains of former occupants of my farm.

Very respectfully
