W. G. WRIGHT,

Collector in BOTANY.

San Bernardino, Cal., March 30 1882

Prof. O. C. Marsh

New Haven, Ct.

Dear Sir

At the suggestion of  
Dr Parry I send you  
herewith some fossil  
bones (supposed to be  
turtle bones) collected by  
me last January, in  
Lower California, where  
they mainly compose huge  
rocks. I believe that  
some from same locality  
were sent to the Smithsonian  
Inst. a few years ago.

Yours truly

W. G. Wright
